PREFACE

WITH the initiation in 1947 of the Third Series of the *Catalog of Copyright Entries*, an enlarged format and other changes designed to increase and extend the usefulness of the compilation were adopted. Additional features have been added in most parts of this second volume. Inquiries, suggestions and comments on all details of the *Catalog* are solicited and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Contents.—This part of the *Catalog of Copyright Entries* contains a list of pamphlets (except for a few selected titles that are included in Part 1A, Books and Selected Pamphlets) and serials registered in the Copyright Office from July 1, 1948 through December 31, 1948. It includes also entries for contributions of a literary nature to periodicals registered under the symbol B5. Renewal registrations in these classes made in the first half of 1948 are listed in Part 14A of the *Catalog*.

Arrangement and Entry.—The works listed in this catalog are entered under main headings (personal or corporate author, editor, etc.) or are listed under title. They are arranged alphabetically together with cross references from joint authors, editors, etc. Under the main heading each monographic entry includes the title, illustrators, editors, and all joint authors unless there are more than three in which case only the first is given, edition information, and place of publication and name of publisher if available. Of the physical characteristics of the work there are given the number of pages or volumes and the abbreviation "illus." if the work is illustrated. Where these elements are not present the work is briefly described as a "sheet," "folder," "device," etc. In the case of serial entries, illustration is not specified. If the work belongs to a series, the title of the series is given.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol © and consists of the name of the copyright claimant, the date of publication as given in the copyright application, and the registration number. However, if the name appearing in the heading is the same as that of the copyright claimant it is not repeated in the statement of copyright facts, but the copyright symbol © is added to the heading. For ad interim works, the date the work was deposited in the Copyright Office is given, preceded by the symbol "1c," in addition to the date of publication. Copyright statements for United States editions for which ad interim registration was previously made are followed by the statement of the ad interim registration when this information is available. When the claim is based upon new matter and no edition statement is available, a brief description of the new matter is given after the date.

Abbreviations.—Definitions are not given for abbreviations in common use and included in standard reference works. The following abbreviations are used in the *Catalog of Copyright Entries* with the meanings shown: 1c—one copy deposited; a. k. a.—also known as; d. b. a.—doing business as; t. a.—trading as.

Deposit of Copies.—In the case of every copyright entry listed in the *Catalog*, the deposit of copies (or copy) as required by Title 17, U. S. C., secs. 12 and 13 has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of Title 17, U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 2 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table which follows. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Publication and Subscription.—The annual subscription price for all parts of the complete yearly *Catalog of Copyright Entries* is $20, payable in advance to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Each part of the *Catalog* is published in two semiannual numbers covering, respectively, the periods January-June and July-December. The prices given in the table are for each semiannual number. Orders for the complete *Catalog* or any of its parts should be addressed to the Superintendent of Documents.
